

IN THE CLAIMS:

Please cancel claims 1-68, 91, 95-97, 99 and 113-134 without prejudice.

Please amend claims 92, 98 and 107 as follows:

CE 92. (amended) An organic light emitting device comprising an anode, a cathode and an emissive layer, wherein the emissive layer is located between the anode and the cathode and the emissive layer comprises a phosphorescent organometallic compound, wherein the phosphorescent organometallic compound is an iridium compound including a carbon-metal bond.

CT 98. (amended) The organic light emitting device of claim 92, wherein the phosphorescent organometallic compound is a cyclometallated compound including a cycle closed with at least one metal-X bond, wherein X is selected from the group consisting of nitrogen, sulfur, phosphorous, arsenic and oxygen.

CS 107. (amended) The organic light emitting device of claim 100, wherein the phosphorescent organometallic compound is a cyclometallated compound including a cycle closed with at least one metal-X bond, wherein X is selected from the group consisting of nitrogen, sulfur, phosphorous, arsenic and oxygen.

New claims 135-141 have been added as follows.

C9 135. (new) An organic light emitting device comprising an anode, a cathode and an emissive layer, wherein the emissive layer is located between the anode and the cathode and the emissive layer comprises a phosphorescent organometallic compound, wherein the phosphorescent organometallic compound is a

cyclometallated compound including a carbon-metal bond.

136. (new) The organic light emitting device of claim 135, wherein the cyclometallated compound is a platinum compound.

137. (new) The organic light emitting device of claim 135, wherein the cyclometallated compound further includes a cycle closed with at least one metal-X bond, wherein X is selected from the group consisting of nitrogen, sulfur, phosphorous, arsenic and oxygen.

138. (New) The organic light emitting device of claim 137, wherein the cyclometallated compound is a platinum compound.

139. (new) The organic light emitting device of claim 137, wherein X is nitrogen.

140. (new) The organic light emitting device of claim 98, wherein X is nitrogen.

141. (new) The organic light emitting device of claim 107, wherein X is nitrogen.

REMARKS

I. INTRODUCTION

Prior to this amendment, claims 1-68 and 91-134 were pending in the current application. Applicants gratefully acknowledge the Examiner's allowance of claims 100-106 and 109-112. By the current amendment, claims 1-68, 91, 95-97, 99 and 113-134 have been
